

## QABA SUPERVISION LOG

Candidate Name (Supervisee): \_\_\_\_\_

Credential Applying For: \_\_\_\_\_

Supervisor Name and Credential #: \_\_\_\_\_

Location (country): \_\_\_\_\_

Does the profession of Behavior Analysis require a license in the state which you are providing supervision: Y / N

If so, do you have an active license in good standing: Y / N

State License Number and Date of Expiration: \_\_\_\_\_

**QBA**: The QBA requires 1,500 hours of fieldwork with 5% supervision every 3-month period (75 hours total). 900 hours must be in a supervisory role or program development. Up to 600 hours may be 1:1 direct care, but direct care hours are not necessary for the 1,500 hours.

**QASP-S**: The QASP-S is required to meet with his or her supervisor for 5% of the 1,000 hours they provide behavior analytic services every 3-month period. After certification, a rate of 2% minimum is required pending supervisor discretion.

**ABAT**: Requires 15 hours of fieldwork with 5% supervision. At least 1.5 hours must be in-person with supervisor.

Supervision may be performed remotely using a QABA-compliant video conferencing program; however, one contact must be one-to-one in-person for a minimum of 1 hour every month.

Up to 50% supervision may be in a group setting.

When in-person supervision places a hardship on the supervisor/supervisee, or jeopardizes the provision of services, please contact [info@qababoard.com](mailto:info@qababoard.com) to request a variance of this requirement. All variances are reviewed by the QABA Board for approval.
